Allowable Subject Matter

1. Claims 2, 4-6, 26, 27, 36-38, 40, 41, 56, and 58-62 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance is the inclusion of the limitation, "wherein the data is transferred between said first and second memories via said first DMA channel, said FIFO unit, and said second DMA channel" as recited in claims 2, 36, and 56. The prior art of record is not directed to a chip, method or device, as claimed, where the data is transferred between the first and second memories via a first DMA channel, a FIFO unit, and a second DMA channel. For example, in U.S. Patent No. 4,428,044 to Liron, at least one FIFO unit transfers data between two busses. However, the data transmission path does not include a FIFO between two DMAs, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
